### **DETAILED ACTION**

1. Applicant is reminded of the proper language and format for an abstract of the disclosure. The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details. The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The words such as "means", "said" should not be used in the abstract.

### **Claim Objection**

2. Claim 1 is objected to because of the following informalities: it is suggested to delete "the" before word phrase "said magnetic" in claim 1, line 4. Appropriate correction is required.

### **Allowable Subject Matter**

Claims 1 – 12 are allowable.

Reasons for allowing the aforementioned claims will be provided in the next office action.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
4. Yamaguchi (US Patent Number 6,602,571) discloses a method for manufacturing magnetic encoders and magnetic encoders manufactured by using such method.
5. Nakajima (US application Number 10/251,800) discloses a magnetic encode and wheel bearing assembly using the same.
6. Kayao (US Application Number 10/643,886) discloses a magnetic encoder.
7. This application is in condition for allowance except for the formal matters mentioned above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
